

Congreso Mexicano del Petróleo

June 23rd - 26th, 2021 · Monterrey, N.L.

“Soberanía Energética con Contenido Nacional”

Mexico City, June 18th, 2020

IMPORTANT NOTICE

Dear Attendee,

For the Mexican Oil Conference (CMP by its acronym in Spanish), all attendees' health and safety are of utmost importance. For this reason, in the Organizing Committee, we have been closely monitoring the SARS-Cov-2 (COVID 19) pandemic's progress, which, unfortunately, nowadays affects the whole world.

Considering the evolution of this situation, we have decided to postpone our event to safeguarding everyone involved. The new dates will be from **June 23rd to 26th, 2021**. We confirm that the Cintermex venue, located in the city of Monterrey, Nuevo Leon, will continue to host the Conference.

Based on the recommendations of the World Health Organization, during the coming months, limiting social contact will be of vital importance to stop the virus from spreading. We hope you will support the measures taken by the event to take care of the health and guarantee the sanitary safety of participating exhibitors, sponsors, attendees, organizers, staff, and authorities.

The CMP is the most significant event in the energy industry in Mexico and Latin America so that we will carry out digital activities during 2020 and 2021. We want to share with you that we are preparing virtual forums, in which industry experts will participate and present strategic information regarding the energy sector.

We will soon send you the invitations so you can book your participation in advance.

Sincerely thanking you for your understanding, we remain at your service and will be pleased to answer any questions you may have.
